MEMORANDUM FOR THE RECORD

STAT FROM: [REDACTED]

SUBJECT CLAS and Cullinet Audit Package

STAT 1. I called [REDACTED] today to get an update on the CLAS project. He said that OIT was attempting to include the CLAS requirements with the BARS requirements against Cullinet to streamline the contracting process. There is to be a meeting STAT between the CLAS team and Cullinet next Tuesday [REDACTED] and I got myself an invitation to the proceedings.

STAT 2. I also raised the issue of obtaining the Cullinet audit STAT package, which [REDACTED] had strongly recommended to me during STAT our visit to Boston last October. [REDACTED] said he thought it was a good idea and would talk to [REDACTED] about including the program within the CLAS request. He considered it likely that OIT would fund it but if it didn't Logistics would probably pick up the tab.
